K64629228	04/18/05	none	#29	An Arkansas voice customer called to complain that the Arkansas relay voice number was answering TTY, using up her cell phone minutes while she waited for an agent to answer voice. No follow up requested.	04/18/05	Apologized to customer. Problem referred to Arkansas Account Manager, who reviewed AR contract requirements and talked to Sprint's Program and IT staff. It was verified that AR answer sequence is 1) voice, 2)TTY, 3)ASCII. No Sprint problem was identified. It may be possible that the customer (especially when using a digital cell phone) did not hear agent first announce ARS (voice) and the call was then processed into next answer sequence.
